

CME 104 Mid-quarter Evaluations

What are positive aspects of OH for you?

What are things that can be improved about OH?

How are we doing on communication? Canvas, Piazza, verbal, etc.

What can we all (you + the TAs :D) do to make the rest of the quarter successful for you?

If you have any other comments for the TAs (including Shai!) or need more space, please write on the back.
